MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Brzezinski, 19 July 1978

1. We discussed the PRC(I) meeting for tomorrow. Brzezinski indicated he was going to be late to the meeting because he had another PRC on technology in China; and though these two PRCs would overlap, he would try to come to the Intelligence one after about 15 minutes.

I discussed the [redacted] issue. Brzezinski is opposed to it on the grounds of expanding the sensitive information too far. He suggests that we have our people keep DOE and Commerce posted on what's going on but not have them participate.

2. Ran out of time.
